

HAMID NASSER HAMED AL-MAMARI

Supply Chain & Logistics Management Student | Energy, Sustainability & Operations Focus

Muscat, Oman | +968 92106665 | hamid921x@outlook.com | LinkedIn: [hamid-almamari-43467b381](#)

PROFESSIONAL PROFILE

Supply Chain & Logistics Management student at the University of Technology and Applied Sciences (UTAS), Al Musannah, with a strong interest in Oman's conventional energy, renewable energy, sustainability, industrial operations and logistics sectors. Combines supply chain thinking, student leadership, sector exposure and project-planning ability to understand how energy systems, business operations and national development priorities connect. Seeking opportunities, training, mentorship or collaboration in energy, sustainability, logistics, operations and project development.

EDUCATION

University of Technology and Applied Sciences (UTAS), Al Musannah | *Diploma in Supply Chain & Logistics Management* | *Current*

- Relevant focus: logistics operations, supply chain coordination, procurement awareness, business management, project planning and operational efficiency.

LEADERSHIP & UNIVERSITY ENGAGEMENT

President - College of Economics & Business Management Community | *UTAS Al Musannah*

- Lead student initiatives, academic activities and professional-development events for business and management students.
- Coordinate with student teams, faculty and stakeholders to support engagement, leadership culture and practical learning.
- Represent the community in activities connected to business, management, sustainability and national development themes.

Former Vice President - Information Technology Community | *UTAS Al Musannah*

- Supported planning and execution of student activities involving technology awareness, teamwork and cross-functional coordination.

ENERGY, SUSTAINABILITY & INDUSTRIAL EXPOSURE

- Attended major sector platforms including Oman Green Hydrogen Summit, Oman Sustainability Week, Hydrogen Oman (Hydrom) Investor Day and the Fifth Duqm Conference.
- Developed awareness of Oman's energy transition, green hydrogen development, renewable energy integration, industrial investment and ESG priorities.
- Visited Mawarid Turbine and met the plant manager, gaining practical exposure to industrial operations, plant management and energy-related manufacturing.
- Follow developments in conventional energy, renewable energy, refineries, utilities, ports, industrial logistics and sustainable development in Oman.

PROJECT DEVELOPMENT & SUSTAINABILITY INITIATIVES

- Prepare structured written project concepts related to renewable energy, green hydrogen, sustainability and industrial development.
- Developed concepts linking renewable power generation, electrolysis, hydrogen storage and transport, green derivatives and industrial applications.
- Built sustainability-focused ideas for campus and operational improvement, including energy-saving and resource-efficiency concepts.
- Translate ideas into clear proposals that can be presented, discussed and refined with academic, industry or executive stakeholders.

KEY SKILLS

Energy & Sustainability: energy transition awareness, renewable energy concepts, conventional energy sector awareness, green hydrogen value chain, ESG thinking

Business & Leadership: student leadership, event coordination, professional communication, networking, project planning, public representation

Project Development: concept development, proposal writing, initiative structuring, practical problem framing and presentation

Target Areas: energy, sustainability, renewable energy, logistics, operations, industrial projects, corporate development

Logistics & Operations: supply chain coordination, logistics planning, procurement awareness, operational efficiency, stakeholder coordination

Digital & Analytical: Microsoft Office, Excel, research, report writing, data organization, visual presentation

Languages: Arabic: Native | English: Working proficiency

Professional Strengths: critical thinking, teamwork, communication, learning agility, disciplined follow-up

ACADEMIC RECOGNITION & REFERENCE

- Received an academic recommendation from the Assistant Dean at UTAS, supporting professional development and future academic ambitions.

Mr. Saleh Abdullah Saleh Al-Balushi | *Lecturer and OJT Coordinator, CCIS | UTAS Al Musannah*
